

OM KUTE

Aspiring DevOps Engineer | AWS | Docker | Kubernetes | CI/CD | Linux

Wardha, Maharashtra | omkute40@gmail.com | LinkedIn: linkedin.com/in/om-kute-19b119270 | GitHub: github.com/Om-Kute

PROFESSIONAL SUMMARY

Highly motivated and detail-oriented DevOps Engineer with hands-on experience in Linux Administration, AWS Cloud, Docker, Kubernetes, Jenkins, Terraform, Git, CI/CD pipelines, and automation tools. Strong foundation in cloud computing, containerization, infrastructure automation, and MERN Stack development. Passionate about building scalable, reliable, and automated deployment solutions. Experienced in real-world development through internships and self-driven projects.

TECHNICAL SKILLS

- Cloud & DevOps: AWS, Docker, Kubernetes, Jenkins, Terraform, CI/CD
- Operating Systems: Linux Administration, User & Permission Management
- Programming & Scripting: Shell Scripting, Bash, Python Basics
- Development: MERN Stack, React.js, Node.js, MongoDB, Express.js
- Version Control: Git, GitHub
- Tools & Concepts: YAML, Automation, Monitoring, Deployment Pipelines

INTERNSHIP EXPERIENCE

Full Stack Web Development Intern – Zintech Company | Jan 2026 – Jun 2026

- Developed MERN Stack web applications with frontend and backend integration.
- Created responsive UI components using React.js and handled API integration.
- Worked collaboratively with development teams on debugging and deployment.
- Gained practical exposure to databases, version control, and deployment workflows.

Android Developer Intern | Feb 2023 – Apr 2023

- Worked on Android application development, debugging, and performance optimization.
- Collaborated with developers and testers to improve application functionality.
- Enhanced problem-solving and team collaboration skills through project work.

DEVOPS & DEVELOPMENT PROJECTS

- Linux User & Group Automation Project – Automated user creation, group management, directory setup, ownership assignment, and Linux permission management using Shell Scripting.
- Weather Forecast ML Application – Built a machine learning-based weather prediction system with Tkinter GUI, graphical forecasting, and 7-day prediction capability.
- Smart Car Parking System – Developed an automation-focused smart parking management solution for efficient parking allocation and monitoring.

EDUCATION

B.Tech in Computer Science Engineering | Bajaj Institute of Technology, Wardha | 2023 – 2026 | CGPA: 7.0

Diploma in Computer Engineering | Government Polytechnic | 2020 – 2023 | 78.69%

SSC | Vivek Madhyamik Vidhyalay | 2020 | 87%

ACHIEVEMENTS & HIGHLIGHTS

- Actively learning advanced DevOps, Cloud, and Infrastructure Automation technologies.
- Built multiple hands-on Linux, Docker, AWS, and automation projects.
- Regularly share Linux and DevOps learning content on LinkedIn.
- Strong interest in scalable infrastructure, CI/CD, and Site Reliability Engineering (SRE).
